

WE'RE MORE THAN JUST INSURANCE

We've put together a group of products and services that make being a pet owner easier, and the best part is that they are included with our coverage plans!

BLUE RIBBON BENEFITS

PetHelpFone™: A team of experienced and qualified veterinary technicians are available when your veterinary practice is not, providing pet owners with 24/7 emergency support.

Compassionate Care Line: Our dedicated, professional in-house counsellor focuses on bringing comfort and clarity to pet owners dealing with issues around serious illness and injuries, and even provides bereavement support if needed.

Pet Poison Helpline®: A 24/7 animal poison-control service that provides assistance with treating a potentially poisoned pet. Pet Poison Helpline is staffed with veterinary and toxicology professionals.

Pet Concierge: Looking for a pet-related service, product or business? We're on top of all the latest and greatest, so we can help you get connected.

\$1,000 Emergency Medical Coverage: You'll receive \$1,000 in emergency medical coverage if your pet incurs a life-threatening injury while lost.

Free subscription: Receive *Modern Dog* or *Modern Cat* magazine – lifestyle publications for you and your pet. Simply the best pet magazines ever!

WE'RE DIFFERENT—HERE'S HOW WE STAND OUT

No breed exclusions - we cover every breed, and even health conditions associated with a breed, if they aren't pre-existing when your coverage starts.

Know what's covered from the start - insurers call this "underwriting up front". We look at your pet's health records and tell you if anything's not covered when you purchase, so there are no surprises later on.

Don't worry about age - no pet is too old for coverage (although it's a great idea to start early, when there are likely fewer pre-existing health conditions to worry about). And, monthly premiums don't increase due to the age of your pet.

Surgeries, diagnostic tests, medications, hospital stays, examination fees and taxes are covered. Also, there are no per condition or per incident limits.

We are a Canadian company with our head office, call centre and licensed agents in Canada.

Alternative therapies such as hydrotherapy, homeopathy, chiropractic care and other treatments are included in our plan without having to purchase additional coverage.

All Pets Plus Us coverage comes with our 4Life Guarantee. That means that once you've enrolled for coverage, your benefits are automatically guaranteed to renew each year for your pet's entire lifetime.
