Dr Petruka has been invaluable to us and our dogs. She is available to us 24/7/365 and is wholly dedicated to her occupation. She is a partner in this practice and as such has fundraisers such as Christmas Pet Picture Days, summer BBQ's and dog walks to make money for various charities such as the St. John's Therapy dogs. Personally, if I end up having to rescue an animal, she is there giving time and resources to aid in that rescue. One example of a rescue on her own is when a feline with no owner came in that had a crushed mouth. She surgically repaired the feline, and took it home to care for it until it was recovered enough to find a loving home. She has personally come to our house to do the hardest thing possible when it was time to put our dogs down. She made the whole experience as stress free as could be, and I know she took our beloved pet and gave it the utmost dignity when they were gone on to be cremated. I personally know she never stops wanting to learn, and if she is not sure about something, she will take every spare minute she has to find the answers or refer you to someone who does. I trust her completely with my registered boxers, and they love her just as much.
